1 PROJECT STATUS REPORT PURPOSE

The Project Status Report is a document that Project Managers may use as a means of formal regular reporting on the status of a project to key project stakeholders, including the Steering Committee, Project Sponsor, and Senior Manager. Project Status reports can also use to provide a documented history of the project. This can be applied to strengthen lessons learned and to evaluate, review and learn from how the project succeeded and where it may have had difficulties.

Objectives of effective project status reporting include.
- Improve communication of information within the project and across the organization
- To create a record of the project progress
- Improve organizational support for the project
- To determine the improvement of the project
- Simplify the process of gathering and disseminating project information

2 PROJECT STATUS REPORT TEMPLATE

2.1 Project Status Report Details

This status report focuses on creating the CMP and updating the modules of the system.
- CMP document

  o Before continuing the development of LSC-LMS, the team created a CMP document to describe the impact if a change will occur.

- Updated system design

  o The team decided to change the design in frontend and backend.

  o The lead programmer added the RBAC and the modules for courses and tasks in the system.

  o Add session time out

This project status covers the week 7 activities that the LSC-LMS team had which is the start of the finalizing of SRS document and updated system.

Project Recommendations

Consultation with the adviser and consultant are important for guidance in the project and may resolve possible problems. Meet with client before starting the system again so that you know what you will do and no major changes happens while in the middle of creating the system.

Consultation with the adviser and consultant are important for correcting any possible mistakes in creating the project. Make sure that everything is correct before continuing to the next task in creating the system so that no problem will occur in the future tasks.

Objectives for Next Project Status Review

To be able to complete the database and combine it with the LSC Enrolment System and to be able to do the views of the student's profile, the course and subject modules.
